

ACGME International

**Advanced Specialty Program Requirements for
Graduate Medical Education in
Pediatric Rheumatology
(Pediatrics)**

Initial Approval:

**ACGME International Specialty Program Requirements for
Graduate Medical Education
in Pediatric Rheumatology (Pediatrics)**

1 **Int. Introduction**

2
3 *Background and Intent: Programs must achieve and maintain Foundational Accreditation*
4 *according to the ACGME-I Foundational Requirements prior to receiving Advanced*
5 *Specialty Accreditation. The Advanced Specialty Requirements noted below*
6 *complement the ACGME-I Foundational Requirements. For each section, the Advanced*
7 *Specialty Requirements should be considered together with the Foundational*
8 *Requirements.*

9
10 **Int. I. Definition and Scope of the Specialty**

11
12 Pediatric rheumatology is a subspecialty of pediatrics that comprises the
13 provision of care to infants, children, adolescents, and young adults with acute
14 and chronic multisystem rheumatic and musculoskeletal diseases.

15
16 **Int. II. Duration of Education**

17
18 Int. II.A. The educational program in pediatric rheumatology must be 36 or 48 months in
19 length.

20
21 **I. Institution**

22
23 **I.A. Sponsoring Institution**

24
25 I.A.1. A fellowship in pediatric rheumatology must function as an integral part of
26 an ACGME-I-accredited residency in pediatrics.

27
28 I.A.1.a) The pediatric rheumatology program should be geographically
29 proximate to the affiliated pediatrics residency program.

30
31 I.A.2. The educational program in pediatric rheumatology must not negatively
32 affect the education of residents in the affiliated pediatrics residency
33 program.

34
35 **I.B. Participating Sites**

36
37 See International Foundational Requirements, Section I.B.

38
39 **II. Program Personnel and Resources**

40
41 **II.A. Program Director**

42
43 II.A.1. The program director must demonstrate a record of ongoing involvement
44 in scholarly activity.

45
46 II.A.2. The program director must demonstrate a record of mentoring or guiding
47 fellows in the acquisition of competence in the clinical, teaching, research,

- 48 quality improvement, and advocacy skills pertinent to the discipline.
49
- 50 II.A.3. The program director must ensure that each fellow:
51
- 52 II.A.3.a) is provided with mentorship in development of the necessary
53 clinical, educational, scholarship, and administrative skills; and,
54
- 55 II.A.3.b) documents experience in procedures.
56
- 57 II.A.3.b).(1) The program director must ensure that such
58 documentation is reviewed as part of the fellow's semi-
59 annual evaluation.
60
- 61 II.A.4. The program director must coordinate, with the program directors of the
62 pediatric residency and other related subspecialty programs, the
63 incorporation of the ACGME-I Competencies into fellowship education to
64 foster consistent expectations for fellows' achievement and faculty
65 members' evaluation processes.
66
- 67 II.A.5. Meetings with the program directors of the pediatrics residency program
68 and all pediatric subspecialty programs should take place at least
69 semiannually.
70
- 71 II.A.5.a) There must be documentation of these meetings.
72
- 73 II.A.5.b) These meetings should address a departmental approach to
74 common educational issues and concerns that may include core
75 curriculum, the ACGME-I Competencies, and evaluation.
76
- 77 II.A.6. The fellowship program director must have the authority and responsibility
78 to set and adjust the clinical responsibilities and ensure that fellows have
79 appropriate clinical responsibilities and an appropriate patient load.
80
- 81 **II.B. Faculty**
82
- 83 II.B.1. To ensure the quality of the education and scholarly activity of the
84 program, and to provide adequate supervision of fellows, there must be at
85 least two full-time equivalent (FTE) core faculty members, including the
86 program director.
87
- 88 II.B.2. Faculty members must encourage and support fellows in scholarly
89 activity.
90
- 91 II.B.2.a) This must include mentoring fellows in the application of scientific
92 principles, epidemiology, biostatistics, and evidence-based
93 medicine to the clinical care of patients.
94
- 95 II.B.2.b) Scholarly activities must be in basic science, clinical care, health
96 services, health policy, quality improvement, or education with
97 implications for the field of pediatric rheumatology.
98

99 II.B.3. Qualified faculty members in the following pediatric subspecialties should
100 be available for the education of fellows:

101
102 II.B.3.a) child and adolescent psychiatry;

103
104 II.B.3.b) child neurology;

105
106 II.B.3.c) pediatric cardiology;

107
108 II.B.3.d) pediatric critical care medicine;

109
110 II.B.3.e) pediatric gastroenterology;

111
112 II.B.3.f) pediatric hematology-oncology;

113
114 II.B.3.g) pediatric infectious diseases; and,

115
116 II.B.3.h) pediatric nephrology.

117
118 II.B.4. The faculty should also include the following specialists with substantial
119 experience in treating pediatric problems:

120
121 II.B.4.a) allergist and immunologist(s);

122
123 II.B.4.b) anesthesiologist(s);

124
125 II.B.4.c) dermatologist(s);

126
127 II.B.4.d) medical geneticist(s);

128
129 II.B.4.e) neuroradiologist(s);

130
131 II.B.4.f) ophthalmologist(s);

132
133 II.B.4.g) orthopaedic surgeon(s);

134
135 II.B.4.h) pathologist(s);

136
137 II.B.4.i) pediatric surgeon(s);

138
139 II.B.4.j) physiatrist(s); and,

140
141 II.B.4.k) radiologist(s).

142
143 II.B.5. Consultants with expertise in adult rheumatology should be available for
144 transition care of young adults.

145
146 **II.C. Other Program Personnel**

147
148 II.C.1. To ensure multidisciplinary and interprofessional practice in pediatric
149 rheumatology, the following personnel with pediatric focus and

- 150 experience should be available:
151
152 II.C.1.a) child life therapist(s);
153
154 II.C.1.b) dietitian(s);
155
156 II.C.1.c) mental health professional(s);
157
158 II.C.1.d) nurse(s);
159
160 II.C.1.e) occupational therapist(s);
161
162 II.C.1.f) pharmacist(s);
163
164 II.C.1.g) physical therapist(s);
165
166 II.C.1.h) respiratory therapist(s);
167
168 II.C.1.i) school and special education liaison(s); and,
169
170 II.C.1.j) social worker(s).

171
172 **II.D. Resources**

- 173
174 II.D.1. Facilities and services, including comprehensive laboratory, pathology,
175 and imaging services, must be available.
176
177 II.D.1.a) The program must have access to laboratories that perform
178 testing specific to pediatric rheumatology.
179
180 II.D.2. An adequate number and variety of pediatric rheumatology patients
181 ranging in age from newborn through young adulthood must be available
182 to provide a broad experience for fellows.
183
184 II.D.3. A sufficient number of patients must be available in inpatient and
185 outpatient settings to meet the educational needs of the program.
186

187 **III. Fellow Appointment**

188
189 **III.A. Eligibility Criteria**

- 190
191 III.A.1. Prior to appointment in the program, fellows should have completed an
192 ACGME-I-accredited residency program in pediatrics, or a pediatric
193 residency program acceptable to the Sponsoring Institution's Graduate
194 Medical Education Committee.
195

196 **III.B. Number of Fellows**

197
198 See International Foundational Requirements, Section III.B.
199

200 **IV. Specialty-Specific Educational Program**

201		
202	IV.A.	ACGME-I Competencies
203		
204	IV.A.1.	The program must integrate the following ACGME-I Competencies into
205		the curriculum.
206		
207	IV.A.1.a)	Professionalism
208		
209	IV.A.1.a).(1)	Fellows must demonstrate a commitment to
210		professionalism and an adherence to ethical principles.
211		
212	IV.A.1.b)	Patient Care and Procedural Skills
213		
214	IV.A.1.b).(1)	Fellows must provide patient care that is compassionate,
215		appropriate, and effective for the treatment of health
216		problems and the promotion of health.
217		
218	IV.A.1.b).(1).(a)	Fellows must demonstrate competence in the
219		clinical skills necessary in pediatric rheumatology,
220		including:
221	IV.A.1.b).(1).(a).(i)	managing care of children with rheumatic
222		diseases, to include:
223		
224	IV.A.1.b).(1).(a).(i).(a)	acute rheumatic fever/post
225		streptococcal arthritis and reactive
226		arthritis;
227		
228	IV.A.1.b).(1).(a).(i).(b)	dermatomyositis/polymyositis;
229		
230	IV.A.1.b).(1).(a).(i).(c)	infections of bones and joints, to
231		include Lyme disease;
232		
233	IV.A.1.b).(1).(a).(i).(d)	joint hypermobility syndromes;
234		
235	IV.A.1.b).(1).(a).(i).(e)	juvenile idiopathic arthritis and/or
236		uveitis;
237		
238	IV.A.1.b).(1).(a).(i).(f)	psoriatic arthritis;
239		
240	IV.A.1.b).(1).(a).(i).(g)	rheumatic aspects of malignancy;
241		
242	IV.A.1.b).(1).(a).(i).(h)	rheumatic aspects of systemic and
243		genetic diseases such as endocrine,
244		metabolic, pulmonary, and
245		gastrointestinal diseases, periodic
246		fever syndromes, and skeletal
247		dysplasias, etc.;
248		
249	IV.A.1.b).(1).(a).(i).(i)	scleroderma, localized and systemic;
250		

251	IV.A.1.b).(1).(a).(i).(j)	systemic lupus erythematosus;
252		
253	IV.A.1.b).(1).(a).(i).(k)	systemic vasculitis (Henoch-Schonlein purpura, granulomatosis with polyangiitis, polyarteritis nodosa, Kawasaki disease, etc.);
254		and,
255		
256		
257		
258		
259	IV.A.1.b).(1).(a).(i).(l)	undifferentiated rheumatic diseases,
260		other musculoskeletal complaints,
261		and abnormal laboratory tests
262		related to rheumatic diseases.
263	IV.A.1.b).(1).(a).(ii)	promoting emotional resilience in children
264		and adolescents and their families, to
265		include:
266		
267	IV.A.1.b).(1).(a).(ii).(a)	providing care that is sensitive to the
268		developmental stage of the patient
269		with common behavioral and mental
270		health issues, and the cultural
271		context of the patient and the
272		patient's family; and,
273		
274	IV.A.1.b).(1).(a).(ii).(b)	referring and/or co-managing
275		patients with common behavioral
276		and mental health issues along with
277		appropriate specialists when
278		indicated.
279		
280		
281	IV.A.1.b).(1).(a).(iii)	providing consultation, performing a history
282		and physical examination, making informed
283		diagnostic and therapeutic decisions that
284		result in optimal clinical judgement, and
285		developing and carrying out management
286		plans; and,
287		
288	IV.A.1.b).(1).(a).(iv)	providing transfer of care that ensures
289		seamless transitions.
290		
291	IV.A.1.b).(1).(b)	Fellows must demonstrate competence in the
292		utilization of:
293		
294	IV.A.1.b).(1).(b).(i)	bedside ultrasound;
295		
296	IV.A.1.b).(1).(b).(ii)	immunomodulatory therapy;
297		
298	IV.A.1.b).(1).(b).(iii)	interpretation of slit lamp examination of the
299		eye;
300		

301	IV.A.1.b).(1).(b).(iv)	nailfold capillary microscopy; and,
302		
303	IV.A.1.b).(1).(b).(v)	pharmacologic and non-pharmacologic
304		management of pain, including the multiple
305		modalities by which pain can be treated.
306		
307	IV.A.1.b).(1).(c)	Fellows must demonstrate competence in the
308		management of patients with acute or chronic
309		complex multi-system rheumatic disease in an
310		ambulatory, emergency, or inpatient setting.
311		
312	IV.A.1.b).(1).(d)	Fellows must competently use and interpret
313		laboratory tests, imaging, and other diagnostic
314		procedures.
315		
316	IV.A.1.b).(1).(e)	Fellows must demonstrate competence in the
317		selection and evaluation of laboratory tests and
318		procedures necessary for pathologic, physiologic,
319		immunologic, microbiologic, radiologic, and
320		psychosocial assessment of rheumatic and
321		musculoskeletal diseases.
322		
323	IV.A.1.b).(1).(f)	Fellows must demonstrate competence in providing
324		care for patients with whom they have limited or no
325		physical contact, through telemedicine.
326		
327	IV.A.1.b).(1).(g)	Fellows must demonstrate competence in making
328		and coordinating consultations for physical therapy
329		and/or occupational therapy.
330		
331	IV.A.1.b).(1).(h)	Fellows must demonstrate leadership skills to
332		enhance team function, the learning environment,
333		and/or the health care delivery system/environment
334		with the ultimate intent of improving care of
335		patients.
336		
337	IV.A.1.b).(2)	Fellows must be able to perform all medical, diagnostic,
338		and surgical procedures considered essential for the area
339		of practice.
340		
341	IV.A.1.b).(2).(a)	Fellows must demonstrate the necessary
342		procedural skills and develop an understanding of
343		their indications, risks, and limitations, including:
344		
345	IV.A.1.b).(2).(a).(i)	diagnostic aspiration of joints and
346		interpretation of synovial fluid studies; and,
347		
348	IV.A.1.b).(2).(a).(ii)	intra-articular administration of
349		glucocorticoids.
350		
351	IV.A.1.c)	Medical Knowledge

352		
353	IV.A.1.c).(1)	Fellows must demonstrate knowledge of established and
354		evolving biomedical clinical, epidemiological, and social-
355		behavioral sciences, as well as the application of this
356		knowledge to patient care. Fellows must demonstrate
357		knowledge of:
358		
359	IV.A.1.c).(1).(a)	biostatistics, bioethics, clinical and laboratory
360		research methodology, study design, preparation of
361		applications for funding and/or approval of clinical
362		research protocols, critical literature review,
363		principles of evidence-based medicine, ethical
364		principles involving clinical research, and teaching
365		methods;
366		
367	IV.A.1.c).(1).(b)	multidisciplinary nature of pediatric rheumatology;
368		and,
369		
370	IV.A.1.c).(1).(c)	normal growth and development, with emphasis on
371		the musculoskeletal system, as well as the
372		correlation of pathophysiology with clinical
373		diseases.
374		
375	IV.A.1.d)	Practice-based Learning and Improvement
376		
377	IV.A.1.d).(1)	Fellows must demonstrate the ability to investigate and
378		evaluate their care of patients, to appraise and assimilate
379		scientific evidence, and to continuously improve patient
380		care based on constant self-evaluation and lifelong
381		learning.
382		
383	IV.A.1.e)	Interpersonal and Communication Skills
384		
385	IV.A.1.e).(1)	Fellows must demonstrate interpersonal and
386		communication skills that result in the effective exchange
387		of information and collaboration with patients, their
388		families, and health professionals.
389		
390	IV.A.1.e).(1).(a)	Fellows must demonstrate competence in
391		communicating as a consulting physician to
392		patients with complex and chronic rheumatic
393		diseases and their families.
394		
395	IV.A.1.f)	Systems-based Practice
396		
397	IV.A.1.f).(1)	Fellows must demonstrate an awareness of and
398		responsiveness to the larger context and system of health
399		care, including the social determinates of health, as well as
400		the ability to call effectively on other resources in the
401		system to produce optimal care.
402		

- 403 **IV.B. Regularly Scheduled Educational Activities**
404
- 405 IV.B.1. Fellows must have a formally-structured educational program in the
406 clinical and basic sciences related to pediatric rheumatology.
407
- 408 IV.B.1.a) The program must utilize didactic and clinical experience for fellow
409 education.
410
- 411 IV.B.1.b) Pediatric rheumatology conferences must occur regularly and
412 must involve active fellow participation in planning and
413 implementation.
414
- 415 IV.B.1.c) Fellows must participate in structured learning activities with a
416 multidisciplinary team that includes the relevant allied health
417 professionals.
418
- 419 IV.B.1.d) Fellow education must include instruction in:
420
- 421 IV.B.1.d).(1) basic and fundamental disciplines, as appropriate to
422 pediatric rheumatology, such as anatomy, biochemistry,
423 embryology, genetics, immunology, microbiology,
424 nutrition/metabolism, pathology, pharmacology, and
425 physiology;
426
- 427 IV.B.1.d).(2) bioethics;
428
- 429 IV.B.1.d).(2).(a) This should include attention to physician-patient,
430 physician-family, physician-physician/allied health
431 professional, and physician-society relationships.
- 432 IV.B.1.d).(3) pathophysiology of disease, reviews of recent advances in
433 clinical medicine and biomedical research, and
434 conferences dealing with complications and death, as well
435 as the scientific, ethical, and legal implications of
436 confidentiality and informed consent; and,
437
- 438 IV.B.1.d).(4) the economics of health care and current health care
439 management issues, such as clinical outcomes, cost-
440 effective patient care, practice management, preventive
441 care, population health, quality improvement, and resource
442 allocation.
443
- 444 IV.B.1.e) The program should provide instruction and experience in the
445 rehabilitative and psychosocial aspects of chronic rheumatic
446 diseases as they affect the child.
447
- 448 IV.B.1.f) The program should provide instruction in indications for
449 appropriate surgical interventions, including tissue biopsies in
450 rheumatic diseases.
451
452

- 453 **IV.C. Clinical Experiences**
454
- 455 IV.C.1. Fellows must have a minimum of 12 months of clinical experience.
456
- 457 IV.C.2. The educational program must include fellow experience in counseling
458 patients with chronic illness and their families.
459
- 460 IV.C.3. Fellow education must include experience in serving as a role model and
461 providing supervision to residents and/or medical students.
462
- 463 IV.C.4. Assignment of rotations must be structured to minimize the frequency of
464 rotational transitions, and rotations must be of sufficient length to provide
465 a quality educational experience, defined by continuity of patient care,
466 ongoing supervision, longitudinal relationships with faculty members, and
467 meaningful assessment and feedback.
468
- 469 IV.C.5. Clinical experiences should be structured to facilitate learning in a manner
470 that allows fellows to function as part of an effective interprofessional
471 team that works together longitudinally with shared goals of patient safety
472 and quality improvement.
473
- 474 IV.C.6. Fellows must have responsibility for providing longitudinal care to a panel
475 of patients throughout their educational program that is supervised by one
476 or more members of the pediatric rheumatology faculty.
477
- 478 IV.C.6.a) This must include longitudinal care for outpatients.
479
- 480 IV.C.6.b) The panel of patients must be representative of the types of
481 rheumatic complaints fellows are likely to encounter once they
482 complete the educational program.
483
- 484 **IV.D. Scholarly Activity**
485
- 486 IV.D.1. Fellows' Scholarly Activity
487
- 488 IV.D.1.a) The program must have a core curriculum in research and
489 scholarship.
490
- 491 IV.D.1.a).(1) Where appropriate, the curriculum should be a
492 collaborative effort involving all pediatric subspecialty
493 programs at the Sponsoring Institution.
494
- 495 IV.D.1.b) The program must provide a Scholarship Oversight Committee for
496 each fellow to oversee and evaluate the fellow's progress as
497 related to scholarly activity.
498
- 499 IV.D.1.b).(1) Where applicable, a fellow's Scholarship Oversight
500 Committee should be a collaborative effort involving other
501 pediatric subspecialty programs or other experts.
502
- 503 IV.D.1.c) Each fellow must design and conduct a scholarly project in

504		pediatric rheumatology with guidance from the fellowship director
505		and a designated mentor. The designated mentor must:
506		
507	IV.D.1.c).(1)	be approved by the Scholarship Oversight Committee;
508		and,
509		
510	IV.D.1.c).(2)	have expertise in the fellow's area of scholarly interest,
511		either as a faculty member in pediatric rheumatology or
512		through collaboration with other departments or divisions.
513		
514	IV.D.1.d)	Fellows' scholarly experience must begin in the first year of and
515		continue for the entire length of the educational program.
516		
517	IV.D.1.d).(1)	The experience must be structured to allow development
518		of requisite skills in research and scholarship, and provide
519		sufficient time for project completion, and presentation of
520		results to the Scholarship Oversight Committee.
521		
522	IV.D.2.	Faculty Scholarly Activity
523		
524		See International Foundational Requirements, Section IV.D.2.
525		
526	V.	Evaluation
527		
528		See International Foundational Requirements, Section V.A.
529		
530	VI.	The Learning and Working Environment
531		
532	VI.A.	Principles
533		
534		See International Foundational Requirements, Section VI.A.
535		
536	VI.B.	Patient Safety
537		
538		See International Foundational Requirements, Section VI.B.
539		
540	VI.C.	Quality Improvement
541		
542		See International Foundational Requirements, Section VI.C.
543		
544	VI.D.	Supervision and Accountability
545		
546	VI.D.1.	The program director must have the authority and responsibility to set and
547		adjust the clinical responsibilities and ensure that fellows have
548		appropriate clinical responsibilities and an appropriate patient load.
549		
550	VI.D.1.a)	This must include progressive clinical, technical, and consultative
551		experiences that will enable each fellow to develop expertise as a
552		pediatric rheumatology consultant.
553		
554	VI.D.2.	Lines of responsibility for the fellows must be clearly defined.

555		
556	VI.E.	Professionalism
557		
558		See International Foundational Requirements, Section VI.E.
559		
560	VI.F.	Well-Being
561		
562		See International Foundational Requirements, Section VI.F.
563		
564	VI.G.	Fatigue
565		
566		See International Foundational Requirements, Section VI.G.
567		
568	VI.H.	Transitions of Care
569		
570		See International Foundational Requirements, Section VI.H.
571		
572	VI.I.	Clinical Experience and Education
573		
574		See International Foundational Requirements, Section VI.I.
575
